

# LYNX E

*Versatile, Agile and Efficient.*

MADE IN FRANCE

## DESCRIPTION

The LX190 E is an electric drone developed specifically for border surveillance applications and meet the needs of emerging countries in Africa or Asia. It is able to fly in a hostile environment with a payload of 5 kg with an autonomy of 1 hour. Ultra-quiet electric motors allows the drone to gain maximum Stealth and Agility at required environments.

Ideally equipped with a powerful surveillance system that can perform day and night surveillance missions and easy to use. Its versatility makes the drone adapted and ready to use in any situations. This product acts a third eye for any operator

## SPECIFICATIONS

**Length**  
2.55 m

**Empty Weight**  
12 kg

**Width**  
0.70 m

**Implementation time:**  
20 mn

**Height**  
0.70 m

**Rotor Diameter**  
2.2 m

## PERFORMANCES

**Max Altitude**  
3000 m

**Cruise Speed**  
60 km/h

**Relative Elevation**  
1000 m

**Max Speed**  
120 km/h

**Max Take Off Weight**  
25 kg

**Operating Temperature**  
From -10 à +60° C

**Payload**  
1 to 8 kg

**Wind Resistance**  
Up to 70 km/h

**Max Autonomy**  
240 - 120 mn

## APPLICATIONS
